New engine technology was introduced in commercial operation for single-aisle aircraft in 2016. Two of the world's largest engine manufacturers, CFM International (CFMI) and Pratt & Whitney (P&W), launched solutions to re-engine the A320 aircraft model. The A320 is the only in production western-built single-aisle that offers engine choice.

producing the engine of choice for the Airbus A320 family. V2500 engines offer the most advanced technologies in the 22,000- to 33,000-pound thrust range with lowest overall emissions in its class.

### **V2500 ENGINE - V2500 - Pratt & Whitney**

The IAE V2500 is a two-shaft high-bypass turbofan engine which powers the Airbus A320 family, the McDonnell Douglas MD-90, and the Embraer KC-390.. The engine's name is a combination of the Roman numeral V, symbolizing the five original members of the International Aero Engines consortium, which was formed in 1983 to produce the V2500 engine. The 2500 represents the 25,000 lbf (111 kN ...
