REACHSTACKER - Sany

ELME Spreader Model 818 is a telescopic top lift spreader for handling of laden ISO containers weighing up to 45 tonnes. 818 is designed for use under a gantry at the front of a lift truck. The strong and basic concept offers distinct advantages, such as two parallel telescopic beams, assuring max overlap.

Laden container spreader | 818 | ELME Spreader

The ELME truck spreader line includes spreaders for both empty and laden container handling. Our empty container handlers provide a choice of several different container engagement systems, for fast single or double handling. Our proven range of laden container handlers cover fork, reach stacker and gantry mounted spreaders.

Truck Spreaders | ELME Spreader

ELME Spreader was founded in 1974 by Gösta Karlsson, a mechanical engineer from Ljungby, Småland, who dreamed of running a business of his own. During the same year, the first ELME spreader was delivered to a company in Gothenburg, Sweden. Through hard work, commitment and persistence Mr Karlsson managed to build one of the most renowned companies in the business.
