### pontiac ohc 6 for sale | eBay

This involves using shorter 5.7" or 6.0" 230/250 rods, turning counterweights down to clear bottoms of piston skirts (must use custom pistons). Was wondering if the same thing could be done with the OHC Pontiac block. Or if the OHC head can be made to flow sufficiently for the increased displacement.

### OHC Pontiac 6 parts interchangeability with Chevy Inline 6 ...

OHC six did end up going into production in 1965 as the 230 CID base engine in the 1966 Tempest. The Pontiac Cammer had a number of novel features. Overhead cams then were typically driven with...

### Classic Pontiac Cammer Over-Head Cam Six - Investigating ...

And my current favorite, a Pontiac 230-250 OHC six. To give you an idea, I was a teenager working in an automotive machine shop part-time when I disassembled my first Pontiac OHC six. Then the engine was way ahead of its time for an American motor and it still intrigues me now.

### Projects - Pontiac 230-250 Inline six | The H.A.M.B.

It is clearly said in the website of www.firstgenfirebird.org that the Pontiac OHC6 engine has 2 kinds of numbers stamped on the engine block. One is the Engine Identification which clearly indicates what kind of engine you have, it will be either 4-bbl or 1-bbl.

### Need help in engine decoding. - Pontiac Overhead Cam SIX Forum

In its initial form, the Pontiac OHC six displaced 230 cubic inches (3,769 cc), the same as the pushrod six used by the Chevrolet Chevelle/Malibu.

### Cammer: The Pontiac OHC Six > Page 3 of 4 > Ate Up With Motor

The Pontiac Overhead Cam 6 (OHC-6) was initially based on Chevrolet's 230 cubic inch engine, but DeLorean had visions of a world class, technologically advanced, all new engine to power his Pontiacs.

### The Sprint 6: The Little Engine that Could - Part 1 ...

Offered at 230 cubic inches in 1966 and 1967, then bumped to 250 cubes for 1968 and 1969, the OHC mill was the brainchild of then-PMO chief engineer John Z. DeLorean and the Pontiac engineering staff. DeLorean's appreciation for European engineering—and fashion—are well chronicled.

### Inside the Sprint Six | Hemmings

1967 Pontiac introduced the all new Firebirds with OHC. 1967 also offered the 4bbl OHC engine option on wagons. Not listed as a Sprint/sports package. 1968 brought the release of a newly re-designed 250 cid engine. 1969 was the last year for the OHC engine.

### Jeff & Maries 1966 Lemans OHC 6 w/SPRINT - American Torque ...

In OE form the OHC engine was going to be about an inch too long to clear the radiator, so after installing a '69 OHC pump (which is an inch shorter) and a standard SBC water pump pulley along with a thin line flex fan, I now have an engine that from bellhousing to fan is 33 1/8" long. That leaves just over 1/2" to the radiator.
