Location: Soc/Psych 129. Time: 11:45AM-1PM. Days: Tuesday, Thursday. Office hours/location: Monday 11-12, Thursday 1:15-2:15/Physics 029C. Text: Probability by Jim Pitman. Schedule of Topics: Click here Homework: Homework is an absolutely essential component of the course, and your overall performance will largely depend on how much time and energy you put into it.

## Math 230.01

Pitman's book takes a step-by-step approach that builds on prior sections so you don't jump into topics like expectation and distributions without adequate preparation. Unlike Casella and Berger, Pitman's book has a well-organized appendix so you can check other sections of the book for more background when needed.

### **Amazon.com: Probability (Springer Texts in Statistics ...**

This is a text for a one-quarter or one-semester course in probability, aimed at students who have done a year of calculus. The book is organised so a student can learn the fundamental ideas of probability from the first three chapters without reliance on calculus. Later chapters develop these ideas further using calculus tools.
